

Inclement Weather Policy

For the safety of our staff and patrons, it is the policy of the Henry Public Library to be closed when the Henry-Senachwine School District have weather related closures.

The director (or their delegate) has the discretion to close the library for weather conditions that do not affect the school district. Examples of this include, but are not limited to, weather events on weekends, late afternoon/evening, or during school holidays.

At times, it may be decided by the director, that the in town conditions do not necessitate closure. In these instances, the library will be open the normal hours, with the exception of Wednesdays when we will close at 5pm.

Every effort will be made to have closure announcements posted with local media outlets.
